

Childhood Immunization Status (CIS)

HEDIS® Measurement Year 2022 Measures

Measure Description: The percentage of children who turned 2 years of age during the measurement year and had the following vaccinations, with different dates of service, on or by their second birthday:

- **MMR** - One measles, mumps and rubella vaccine on or between the child's first and second birthday or history of measles, mumps or rubella.
- **HepB** - Three hepatitis B or history of hepatitis illness.
- **VZV** - One varicella zoster e.g., chicken pox vaccine on or between the child's first and second birthday or history of varicella zoster illness.
- **HepA** - One hepatitis A vaccine on or between the child's first and second birthday or history of Hepatitis A illness.
- **Influenza** - At least two influenza vaccinations. Vaccines administered prior to 6 months do not count. New addition of LAIV vaccination must occur on child's second birthday.

The following vaccines, if administered prior to 42 days after birth do not count:

- **DTaP** - Four diphtheria, tetanus, and acellular pertussis vaccines on different dates of service.
- **IPV** - Three polio vaccines on different dates of service.
- **HiB** - Three Haemophiles influenza type B vaccines on different dates of service.
- **PCV** - Four pneumococcal conjugate vaccines on different dates of service.
- **RV** - Two or three dose rotavirus or at least one dose of the two-dose rotavirus vaccine and at least two doses of the three-dose rotavirus vaccine on different dates of service.

Eligible Population

Members turning 2 years of age as of December 31 of the measurement year.

Required Documentation

For immunization evidence obtained from the medical record, count members where there is evidence that the antigen was rendered from one of the following:

- A note indicating the name of the specific antigen and the date of the immunization.
- A certificate of immunization prepared by an authorized health care provider or agency including the specific dates and types of immunizations administered.

For documentation history of illness or a seropositive test result, there must be a note indicating the date of the event, which must have occurred by the member's second birthday.

Strategies for Improvement

- Utilize NCQA coding tips to actively reflect care rendered.
- Outreach parents to schedule their child's vaccination appointments.
- Educate staff to schedule visits within guideline time frames.
- Review immunization records/encourage the opportunity to catch up on missing immunizations at each appointment.
- Educate parents on vaccinations, the side effects, and perceived links to autism.
- Advise parents on the importance of completing each vaccine series.
- Provide handouts on the diseases that the vaccines prevent.

Numerator Codes

The complete NCQA approved code set list can be referenced in the coding guide at healthplan.org/providers/patient-care-programs/population-health. For questions, please contact your practice management consultant. To identify your practice management consultant please refer to healthplan.org/providers/overview/meet-provider-servicing-team

**Please Note:

The CIS measure is hybrid. Any care missed via claims during the measurement year will result in medical record requests in the HEIDS Medical Record Review Project.

*The Health Plan has a team of member advocates, health coaches, social workers and nurses who can assist you and your patients to remove or overcome any barriers to care through benefit assistance, community resource referrals or enrollment in a THP clinical program. To refer a patient who is a THP member for assistance, call **1.877.903.7504** and let us know what we can do to help your patient receive and adhere to your recommended plan of care.*

Code Category	Code	Vaccine
CPT	90700	DTAP
CPT	90713	IPV
CPT	90740	HepB
ICD-10	B16.0-B16.2	Hepatitis B
CPT	90644; 90647; 90648	HIB
CPT	90633	HepA
ICD-10	B15.0, B15.9	Hepatitis A
CPT	90707	MMR
CPT	90708	Measles and rubella
ICD-10	B05.0-B05.4	Measles
ICD-10	B26.0-B26.3	Mumps
ICD-10	B06.00-B06.02	Rubella
CPT	90716	VZV
ICD-10	B02.9	Varicella Zoster
CPT	90670	PCV
CPT	90681	Rotavirus 2 dose
CPT	90680	Rotavirus 3 dose
CPT	90655, 90657	Influenza
CPT	90660	Live Attenuated Influenza Vaccine
CPT	90698	DTaP / IPV/ Hib Vaccine (Pentacel) Administered
CPT	90723	DTaP, Inactivated Polio Vaccine (IPV), Hepatitis B Vaccine (Pediarix) Administered
CPT	90748	Hepatitis B, Haemophiles Influenzae Type B (HiB) Vaccine Administered
