

# 2024 High Performance Formulary (List of Covered Drugs)

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION  
ABOUT THE DRUGS WE COVER IN THIS PLAN**

This formulary was updated on 11/27/2023. For more recent information or other questions, please contact The Health Plan Pharmacy Services at 1.800.624.6961 extension 7914, or visit [www.healthplan.org](http://www.healthplan.org).

## **Pharmacy Benefit Programs**

Prescription drugs are an integral component of a comprehensive health maintenance plan. Pharmacy benefit programs at The Health Plan are developed through recommendations of participating physicians and pharmacists. This group of professional health care providers, known as the Pharmacy and Therapeutics Committee, evaluates therapeutic classes of drugs and recommends coverage guidelines for our pharmacy benefit programs. The committee uses current medical and pharmaceutical literature along with recommendations of experts in various clinical specialties in its evaluation of our pharmacy benefit programs. The result is a list of drugs (formulary) to allow for the availability of appropriate medications for our members' needs. Also, the formulary and coverage guidelines allow prescription costs and your premium to be maintained at affordable levels.

### **Definitions**

**Prescription** – Drugs which can only be dispensed upon order (prescription) by a qualified provider of care. Additionally, only drugs which are labeled “Caution: Federal law prohibits dispensing without prescription” will be considered eligible.

**Generic Drug** – A drug available as a chemically and therapeutically equivalent copy of a brand-name drug. It is usually available from several manufacturers.

**Brand Drug** – A prescription item only available from a single-source supplier.

**Multi-Source Brand Drugs** – Brand-name drugs which are manufactured by more than one producer. These agents are usually available as generic equivalents.

## **How to Use Your Prescription Benefit**

Please present The Health Plan ID card to the pharmacist with your prescription. You will be required to pay a copayment (“copay”) at the time of service based on the prescription plan in which you are enrolled. Your copayment levels are found under the pharmacy benefit section Pharmacy Benefit of your Summary of Benefits. Your ID card also contains important information to allow the pharmacy to correctly submit your claim. Please take it with you to the pharmacy.

### **Specialty Pharmacy Program**

Specialty drugs are high-cost medications including drugs manufactured by biotechnology. Specialty drugs may be administered by injection, oral, transdermal, or inhaled. Specialty drugs are used to treat very specific diseases and require extensive management for safety and effectiveness. Dosages need to be monitored for effect and adjustments might be needed for adequate response to effectively treat the disease.

Specialty drug require prior authorization to assure appropriate candidate for the drug. Additionally, oversight is an integral part of the prior authorization process. Dispensing might be limited to pharmacies with specific skills and distribution programs to assure proper delivery of these medications. Diseases targeted to receive therapy are, but not limited to, rheumatoid arthritis, severe chronic psoriasis, multiple sclerosis, hepatitis C, hemophilia, certain cancers, growth deficiency, cystic fibrosis and Crohn's disease.

Coverage for these agents are provided under your Specialty Pharmacy Benefit.

### **Drugs Requiring Prior Authorization**

Certain medications are eligible for coverage only after a patient-specific approval has been authorized. Patient-specific criteria may include age, gender, and clinical conditions determined by the physician for authorization to be granted for a specific drug. A coverage determination request can be made by the member, member's representative or physician. To request a coverage determination please contact pharmacy services at 1.800.624.6961, ext. 7914. Standard requests for coverage determinations will be processed within 7 days. Requests for non-urgent coverage determinations received after 5pm will be processed the next business day. Urgent requests for coverage determinations will be processed within 48 hours.

### **Quantity per Dispensing Event (QPC rules)**

Generally, The Health Plan allows dispensing of approved medications up to a 34-day supply per co-pay at the retail pharmacy network. Quantity per dispensing event rules (QPC) set thresholds that reduce exposure to unnecessary cost, without creating obstacles to access for most members. Drugs that are subject to QPC rules usually have specific limitations for use approved by the FDA. Examples include drugs to treat migraine headaches. These drugs, known as "triptans," are to be used in specific doses up to a defined number of headaches per month. The QPC rules allow this specific number of triptan medications to be dispensed per 34-day benefit period. To inquire about QPC limits to request an exemption, have your provider contact pharmacy services at 1.800.624.6961, ext. 7914.

### **Non-Formulary Coverage Review**

Certain non-formulary medications are eligible for coverage only after a patient-specific approval has been authorized. Patient-specific criteria may include age, gender, and clinical conditions determined by the physician for authorization to be granted for a specific drug. A non-formulary exception request can be made by the member, member's representative or physician. To request an exception please contact pharmacy services at 1.800.624.6961, ext. 7914. Standard requests for exceptions will be processed within 7 calendar days of receipt of the request. Requests for non-urgent coverage determinations received after 5pm will be processed the next business day. Urgent requests for coverage determinations will be processed within 48 hours or receipt.

### **Generic Difference Policy**

#### **(copayment policy for multi-source drugs)**

If a prescription order specifies that a brand-name drug must be dispensed when the generic equivalent is available, or the prescription order allows for generic substitution and the member elects to have the prescription filled with a brand-name drug instead, the member must pay the brand copayment plus the difference between The Health Plan cost of a brand-name and its generic equivalent (i.e., The Health Plan only pays for the generic cost). Please note: Non-formulary brand versions of generic drugs require coverage review as outlined above.

### **Out-of-Area Emergencies**

In situations of emergency need for a prescription outside The Health Plan service area, please contact The Health Plan for the location of a participating pharmacy in that area. Present The Health Plan ID card with the emergency prescription and pay your copayment. If no pharmacy in the area participates with The Health Plan, purchase the emergency prescription and send your receipt to The Health Plan. You will be reimbursed in full, less your applicable copayment, for the prescription provided the prescription meets the guidelines specified in this document.

## Exclusions and Limitations

The following will not be covered or paid for by The Health Plan:

- The charge for any prescription refill other than the number set by the prescriber. Additionally, no refills dispensed more than one year from the date or the original prescription.
- The charge for any prescription, oral or topical, that is prescribed for cosmetic purposes.
- The charge for any medications not FDA-approved for use in the general population.
- Off label use of a drug which is not medically accepted. The Health Plan uses the same guidelines as CMS for determining whether a proposed use is medically accepted.
- The charge for a drug not prescribed by a HealthPlan qualified provider except in an emergency situation.
- The charge for any medication covered by any Worker's Compensation or occupational disease laws, any other group policy, or government program which is not The Health Plan's program.
- Dental-related prescriptions such as, but not limited to, oral fluorides, dental mouth washes, devices used in dental therapy. Certain oral fluoride products may be covered as a preventative medication.
- The charge for prescription drugs or devices used to promote weight loss.
- Prescriptions used to treat sexual dysfunction, either oral or topical, or devices used for impotence.
- Appliances and therapeutic devices which may require a prescription are not covered. These include, but are not limited to, garments, splints, bandages, or braces regardless of intended use.
- Charges for lost or stolen prescription drugs unless noted within your Summary of Benefits. Please contact The Health Plan for details.
- Certain legend drugs when any version or strength become available over the counter.
- The charges for prescriptions related to non-covered services.

- The charge for any prescription prescribed to enhance athletic performance.
- Drugs prescribed to shorten the duration of the common cold.

## Pain Management Program and Opiate/Opioid Management

Pain Management Program will apply to plans within the value program.

The acute use of opioid medications for moderate to severe pain from acute injury, medical treatment or surgical procedure will be limited. The first fill of an opioid medication will be limited to a 5 day supply. This limit is for the first fill of an opioid medication for a member who has no history of opioid usage in the past 130 days.

For those members needing further management of their pain, a prior authorization will be required if:

- The opioid exceeds 80 morphine milligram equivalents
- Is taken for greater than 90 consecutive days
- Is a long acting opioid
- Is being taken with a medication that could cause respiratory depression.

A pharmacist will review the case to evaluate that the opioid is being utilized safely and appropriately. Additionally, the member can be limited to one prescriber and one pharmacy, if needed.

Formulary medications will be preferred over non-formulary medications. Step therapy rules will be applied when reviewing a request for non-formulary medications. Also, dosing and quantities may be limited.

## List of Abbreviations

**1: Preferred Generic**

**2: Preferred Brand**

**3: Non-preferred Drug**

**4: Specialty Drugs**

**5: Medical Service Drugs**

**6: ACA Preventive Medications**

**ACA:** Affordable Care Act

**LA:** Limited Availability. The prescription may be available only at certain pharmacies. For more information, please call Customer Service.

**OTC:** Over the Counter. An OTC drug is a non-prescription drug.

**DME:** Durable Medical Equipment. Will pull the DME benefit.

**PA:** Prior Authorization. The Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.

**QL:** Quantity Limit. For certain drugs, the Plan limits the amount of the drug that we will cover.

**SP:** Specialty Drug.

**ST:** Step Therapy. In some cases, the Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

\* Note: To comply with various laws and regulations impacting plans, cost share and day supply limits may vary for some drugs. Please contact Pharmacy Services if you have a question about your specific drug coverage or consult your Summary of Benefits.

**This Guidebook includes information accurate at the time it was collected from Express Scripts' systems and may not reflect actual benefit setup details at later times.**
