

## WELLNESS WORKSHEET 5 I

### Is Alcohol a Problem in Your Life?

#### Part I. Do You Have a Problem with Alcohol?

To determine if you may have a drinking problem, complete the following two screening tests.

##### A. CAGE Screening Test

Answer yes or no to the following questions:

Have you ever felt you should . . . . . Cut down on your drinking?

Have people . . . . . Annoyed you by criticizing your drinking?

Have you ever felt bad or . . . . . Guilty about your drinking?

Have you ever had an . . . . . Eye-opener (a drink first thing in the morning to steady your nerves or get rid of a hangover)?

One “yes” response suggests a possible alcohol problem. If you answered yes to more than one question, it is highly likely that a problem exists. In either case, it is important that you see your physician or other health care provider right away to discuss your responses to these questions.

##### B. AUDIT Screening Test

For each question, choose the answer that best describes your behavior. Then total your scores.

**Total** \_\_\_\_\_

A total score of 8 or more indicates a strong likelihood of hazardous or harmful alcohol consumption.

Even if you answered no to all four items in the CAGE screening test and scored below 8 on the AUDIT screening test, if you are encountering drinking-related problems with your academic performance, job, relationships, or health, or with the law, you should consider seeking help.
