

Eye Exam for Patients with Diabetes (EED)

HEDIS® Measurement Year 2022 Measures

Measure Description: The percentage of members aged 18-75 with a diagnosis of diabetes (Type 1 and Type 2) who had a retinal eye exam.

Eligible Population

- **NEW for measurement year 2022:** Members 18-75 years of age in the measurement year with a diagnosis of (Type 1 and Type 2) who had a retinal eye exam.

Eye Exam (Diabetic Retinal Exam)

Screening or monitoring for diabetic retinal disease as identified by one of the following exams performed in the measurement year or the year prior to the measurement year.

- Retinal or dilated eye exam must be performed by an eye care professional (optometrist or ophthalmologist) in the measurement year.
- A **negative** retinal or dilated eye exam (negative for retinopathy) by an eye care professional in the year prior to the measurement year.
- Bilateral eye enucleation any time during the member's history through Dec. 31 of the measurement year.

Numerator Codes

The complete NCQA approved code set list can be referenced in the coding guide at healthplan.org/providers/patient-care-programs/population-health.

For questions, please contact your practice management consultant. To identify your practice management consultant please refer to healthplan.org/providers/overview/meet-provider-servicing-team

CPT II	2022F	Dilated retinal eye exam with interpretation by an ophthalmologist or optometrist documented and reviewed, <i>with</i> evidence of retinopathy
CPT II	2023F	Dilated retinal eye exam with interpretation by an ophthalmologist or optometrist documented and reviewed, <i>without</i> evidence of retinopathy
CPT II	2024F	Seven standard field stereoscopic retinal photos with interpretation by an ophthalmologist or optometrist documented and reviewed: <i>with</i> evidence of retinopathy
CPT II	2025F	Seven standard field stereoscopic retinal photos with interpretation by an ophthalmologist or optometrist documented and reviewed: <i>without</i> evidence of retinopathy
CPT II	2026F	Eye imaging validated to match diagnosis from seven standard field stereoscopic retinal photos results documented and reviewed: <i>with</i> evidence of retinopathy

Code Type	Codes	Description
CPT II	2033F	Eye imaging validated to match diagnosis from seven standard field stereoscopic photos results; documented and reviewed; <i>without</i> evidence of retinopathy
CPT II	3072F	Low risk for retinopathy (no evidence of retinopathy in the prior year)
Unilateral Eye Enucleation Left/Right ICD Codes		
08T1XZZ Resection of Left Eye, external approach 08T0XZZ Resection of Right Eye, external approach		
Unilateral Eye Enucleation CPT Codes		
65091, 65093, 65101, 65103, 65105, 65110, 65112 and 65114		

The Health Plan has a team of member advocates, health coaches, social workers and nurses who can assist you and your patients to remove or overcome any barriers to care through benefit assistance, community resource referrals or enrollment in a THP clinical program. To refer a patient who is a THP member for assistance, call **1.877.903.7504** and let us know what we can do to help your patient receive and adhere to your recommended plan of care.

Exclusions

Members are excluded from the measure if they meet the following criteria:

- Hospice care or using hospice services anytime in the measurement year

Codes for Hospice Care

- CPT: 99377, 99378
- HCPCS: G0182, G9473 – G9479, Q5003 – Q5010, S9126, T2042 – T2046

- Receiving palliative care anytime in the measurement year

Codes for Palliative Care

- ICD: 10 Z51.5
- HCPCS: G9054, M1017

- Medicare members age 66 and older as of Dec. 31 of the measurement year who are either enrolled in an institutional special needs plan (I-SNP) or living long-term in an institution.
- Members age 66 and older as of Dec. 31 of the measurement year who meet *both* frailty and advanced illness criteria.
- Members with a diagnosis of Polycystic ovarian syndrome, gestational diabetes or steroid induced diabetes during measurement year or the year prior to measurement year and *do not* have a diagnosis of diabetes during the measurement year or the year prior to the measurement year.

Please Note: Blindness is not an exclusion
