# Focus on Health & Wellness

Adopting a healthy lifestyle is the best preventive medicine. Below are a few suggestions to help you enjoy the best health and quality of life possible.

- Be proactive about your health by staying on top of necessary screenings and health care visits.
- No smoking or smokeless tobacco.
- No illicit or street drugs.
- Limit alcohol (Men two drinks a day; Women one drink a day).
- Eat a high-fiber, low-fat, low-sodium diet. Limit red meat.
- Drink six 8-ounce glasses of water daily.
- Get 30 to 60 minutes of physical activity most days of the week.
- Ask your doctor what your ideal body mass index (BMI) is and then work to attain or maintain it.
- Keep your blood pressure in check. The ideal is 120/80.
- Get seven to eight hours of sleep every night.
- Wear at least 15 SPF sunblock when outside. Have your doctor check any changes in moles.
- Manage stress. Find a hobby you enjoy. Make time for your family and friends. Set realistic goals at home and work. Learn to say "No." Give yourself enough time to get things done.
- Always wear your seatbelt when driving or riding in a car. Wear a helmet when riding an ATV or bicycle.
- Change the battery in your smoke and CO2 detector every six months. Check it monthly.

That means you go to see your doctor annually when you are **well**.

The Health Plan covers the following examinations and services for its members. Members should verify coverage prior to obtaining services. We encourage you to use this guide to help you schedule visits with your primary care physician (PCP).

Advances in childhood immunization vaccines have decreased the number of overall immunizations your child may receive. This is due to the increasing number of combination vaccines now available.

Your child's doctor can best advise you on the appropriate age and the expected number of immunizations for each disease. Most immunizations start at 2 months of age.

Please be sure to make and keep your child's appointment with their doctor.

# Childhood Immunization and Screening Guidelines

(Birth to 18 Years Old)

### **Check-up Schedule:**

Newborn
4 months
5 days
6 months
18 months
