Comfort and Convenience Items

PURPOSE:

This policy is designed to discuss durable medical equipment (DME) items that may be designated as comfort and/or convenience items.

DEFINITIONS:

The term DME (Durable Medical Equipment) is defined as equipment which:

- Can withstand repeated use; i.e., could normally be rented, and used by successive patients;
- Is primarily and customarily used to serve a medical purpose;
- Generally, it is not useful to a person in the absence of illness or injury; and
- Is appropriate for use in a patient's home.

COVERAGE GUIDELINES:

The Health Plan complies with all Medicare National Coverage Determinations (NCDs) and applicable Local Coverage Determinations (LCDs) for all therapies, items, services, and/or procedures that are covered by benefits under Medicare. If the coverage criteria in this policy conflict with any NCDs or relevant LCD, the relevant document controls the application of services regardless of the version of the NCD or LCD listed in the reference section.

Items that are used for comfort, convenience, exercise, hygiene, or safety purposes are not primarily medical in nature and are not medically necessary.

Items may also be considered not medically necessary if they are considered environmental control equipment, exercise equipment, emergency or precautionary supplies, items that are not therapeutic in nature, institutional equipment, and/or are unsuitable for home use.

West Virginia Medicaid/Mountain Health Trust plans may cover some items listed below that are usually considered comfort, convenience, hygiene, or safety items under certain situations. Please refer to the West Virginia Department of Human Services Bureau for Medical Services for guidance or The Health Plan's Prior Authorization list on The Health Plan's website.

The lists below are not considered to be all-inclusive.

POST-PAYMENT AUDIT STATEMENT:

The medical record must include documentation that reflects the medical necessity criteria and is subject to audit by THP at any time pursuant to the terms of your provider agreement.

DISCLAIMER:

This policy is intended to serve as a guideline only and does not constitute medical advice, any guarantee of payment, plan pre-authorization, an explanation of benefits, or a contract. This policy is intended to address medical necessity guidelines that are suitable for most individuals. Each individual's unique clinical situation may warrant individual consideration based on medical records. Individual claims may be affected by other factors, including, but not necessarily limited to, state and federal laws and regulations, legislative mandates, provider contract terms, and THP's professional judgment. Reimbursement for any services shall be subject to member benefits and eligibility on the date of service, medical necessity, adherence to plan policies and procedures, claims editing logic, provider contractual agreement, and applicable referral, authorization, notification, and utilization management guidelines. Unless otherwise noted within the policy, THP's policies

apply to both participating and non-participating providers and facilities. THP reserves the right to review and revise these policies periodically as it deems necessary in its discretion, and they are subject to change or termination at any time by THP. THP has full and final discretionary authority for its interpretation and application. Accordingly, THP may use reasonable discretion in interpreting and applying this policy to health care services provided in any particular case.

DEVICE PROVIDED TO A MEMBER IN PART A FACILITY:

Providers should follow the appropriate billing and contractual guidelines for the specific line of business when supplying any of the items listed in this policy to a member while in an inpatient hospital, rehabilitation, or skilled inpatient level of care.

NOTIFICATION REQUIREMENTS:

If applicable, providers may be held financially responsible if they furnish the above items without notifying the member, verbally and in writing, that the specific service being provided is not covered. This must be done prior to the dispensing of the device. The provider should submit this information upon request.

PRICING, DATA ANALYSIS, AND CODING (PDAC):

The Health Plan has implemented use of Medicare's PDAC contractor for review of authorizations when applicable. Suppliers should contact the PDAC contractor for guidance on the correct coding of these items dmepdac.com/.
