DEFINITIONS

There are special words and phrases that we use to describe how we arrange medical care. The list below explains some of these words and phrases. This list will help you understand the rest of this handbook. The Health Plan will provide a summary of our accreditation report, if applicable, upon request by the member.

The Health Plan must ensure that members are not discriminated against in the delivery of health care services consistent with the benefits covered in their policy based on race, ethnicity, national origin, religion, sex, age, mental or physical disability, sexual orientation, genetic information, or source of payment.

Appeal: A way for you to request the review of The Health Plan's decision if you think we made a mistake. For example, you might not agree with a decision that denies a benefit or payment.

Case management: A patient-specific process of coordinating resources and creating flexible, quality, cost-effective health care options. It should result in a quality efficient delivery of health care services. This is done by registered nurses that focus on members with a complex illness and/or injury. Members can self-refer for case management services by calling The Health Plan.

Community resources: The Health Plan Clinical Services Department keeps a list of community resources that may assist you with some services. These are agencies in your local community that help you with social services. They can also help with physical health, behavioral health, and disability needs. The social worker and/or care/case nurse navigators can help you access these services.

Co-payment: A fixed amount you pay each time you get a covered service or supply. For example, if you use the emergency room when it is not an emergency, you might pay \$8.

It is to evaluate and treat a medical problem caused by sudden, unexpected symptoms that require immediate medical attention. An emergency is usually a sudden and unexpected illness or injury that needs care to prevent (1) serious harm to the health of the person (or unborn child); (2) serious harm to bodily functions; (3) serious dysfunction of any bodily organ or part.

Emergency medical transportation: Ambulance services for an emergency medical condition.

Emergency room care: Emergency services you receive in an emergency room.

Emergency services: Covered inpatient and outpatient services that are (1) given by a qualified practitioner and; (2) needed to evaluate or stabilize an emergency medical condition. This includes emergency services within or outside of the plan.

Excluded services: Health care services that The Health Plan does not pay for or cover.

Fee-for-service: Health care services that the Medicaid program pays for. You should use your medical card to get these health care services. These services include nursing home, pharmacy, transplants and non-emergency transportation.

Grievance: A complaint you make, either in writing or orally, about any aspect of service delivery provided or paid for by The Health Plan or our providers. For example, you might complain about the quality of your care.

Habilitation services and devices: Health care services and devices that help you keep, learn, or improve skills and functioning for daily living. Examples include occupational therapy, speech therapy, and other services for people with disabilities in inpatient and/ or outpatient settings.

A specially trained team of professionals and caregivers provide care for the whole person, including physical, emotional, social, and spiritual needs.

STEPS TO YOUR GETTING CARE

YOUR MEMBER ID CARD

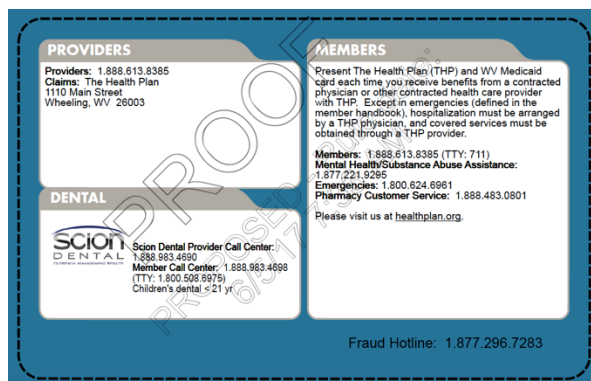

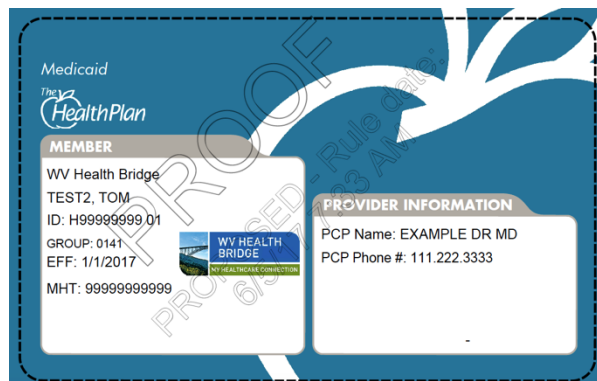

After you join The Health Plan, we will send you your member ID card in the mail. Each member of your family who has joined The Health Plan will receive his or her own card. If you have not received your member ID card after 14 days, please call Member Services at 1.888.613.8385.

It is important to always keep your member ID card with you. You will need it any time you get care. Your card is your proof that you are a member of The Health Plan. You should also keep your Medicaid Benefit card. You need it to get care that is not covered by The Health Plan.

Mountain Health Trust members, your card should look like this:

WV Health Bridge members, your card should look like this:

You will find some useful information on your card like your Medicaid ID number, your PCP's name and office phone number, the start date of your health coverage, and other important phone numbers. Having your card out when you call Member Services can help us serve you faster.

Please call Member Services immediately at 1.888.613.8385 if:

- You lose your card
- Your card is stolen
- You have not received your card(s)
- Any of the information on the card(s) is wrong
- You have a baby or add a new member to your family
- You move
- Someone in your family dies

Please call your county DHHR immediately if you move to another state or to another country.

CHOOSING YOUR PRIMARY CARE PROVIDER (PCP)

Each member of The Health Plan chooses a primary care provider (PCP) from the Provider Directory. A PCP is a specific clinician responsible for coordinating your health care needs. You can find a list of PCP's online at www.findadoc.healthplan.org. Member Services can help you select a PCP to best fit your needs. If you do not pick a PCP from the directory, we will choose one for you.

If you have a chronic illness, then you may be able to select a specialist as your PCP. Please call Member Services to discuss (1.888.613.8385). If you already have a PCP and believe you need a specialist, you or your provider should call Member Services. Women can also receive women's health care services from an obstetrical/ gynecological practitioner (OB/GYN) without a referral from your PCP.

Upon request, a description of the method of physician compensation is available to The Health Plan members.

HOW TO SCHEDULE AN APPOINTMENT

You will visit your PCP for all of your routine health care needs. All new members should try to schedule an appointment within 90 days. You can schedule your appointments by calling the PCP's office phone number. Your PCP's name and office phone number will be listed on your member ID card. You can call 24 hours a day, seven days a week. On the day of your visit, remember to bring your member ID card and your Medicaid ID card. Please show up on time, and call to cancel an appointment if you cannot make it.

To schedule a visit with a specialist, first contact your PCP for a referral.

CHANGING YOUR PCP

If you need to, you can change your PCP for any reason. Let us know right away by calling Member Services at 1.888.613.8385. You can change your PCP at any time. We will send you a new member ID card in the mail and let you know that your PCP has been changed. It usually helps to keep the same PCP so he or she can get to you know you and your medical history.

Sometimes PCPs leave our network. If this happens, we will let you know by mail within 14 calendar days for a PCP and within 30 days for a hospital. We can assign you a new PCP or you can pick a new one yourself within 30 days of the notice. If we need to assign you a new PCP for another reason, we will let you know.

WHERE TO GET MEDICAL CARE

Please read below to understand what type of care to get in different situations.

ROUTINE CARE

You should see your PCP for all routine health care visits. Routine visits are when a delay in medical care would not cause a serious problem with your health. Some reasons to get a routine health care visit include checkups, screenings, physicals, and care for diabetes and asthma. You can call your PCP to schedule these visits at any time. You and your PCP should work together to get you the care you need.

- Well-care Visits – A well care visit is when you or your child sees your PCP for a preventive visit. These visits are not for treating conditions or diseases, so you should schedule a well care visit even if you do not feel sick. During the appointment, your PCP will review your medical history and health. Your PCP may suggest ways to improve your health, too. You can learn more about well-care visits under the section titled “More Information about Your Coverage.”
- After Hours Care – You can reach your PCP even if it is after normal business hours. Just leave a voicemail with your name and phone number. Your PCP or another PCP from the same office will call you back as soon as possible or during office hours.

URGENT CARE

You can visit an urgent care center when you have an injury or illness that needs prompt care but is not an emergency. Some examples of when to get urgent care are:

- A sprained ankle
- A bad splinter
- The flu

You can also get urgent care if you are traveling and are too far from your PCP's office. You can schedule an urgent care appointment by calling your PCP. You should explain the medical problem so that your PCP can make your appointment or help you decide what to do.

EMERGENCY CARE

You should get emergency care when you have a very serious and sudden medical problem. An emergency would make someone think he or she needs to be treated right away. Some examples of an emergency are:

- Vaginal bleeding
- A heart attack
- Severe chest pain
- Seizures
- Rape

You should not go to the emergency room (ER) for things like:

- Colds
- Minor cuts and bruises
- Sprained muscles

If you believe you have a medical emergency, call 911 immediately or go to the nearest ER. When you get there, show your member ID card. You do not need approval from your PCP or The Health Plan. If you are traveling and away from home when you have a medical emergency, go to the nearest ER. You have the right to go to the nearest hospital, even if it is not in our network. If you're not sure what to do, call your PCP or The Health Plan at 1.888.613.8385. Remember to use the ER only if you have an emergency. You are always covered for emergencies.

If you need to stay in the hospital after an emergency, please make sure The Health Plan is called within 24 hours. If you are told that you need other medical care to treat the problem that caused the emergency, the provider must call The Health Plan. If you are able, call your PCP to let him or her know that you

have a medical emergency. You will need to schedule follow-up (called post-stabilization) services with your PCP.

For more information about emergency transportation and post-stabilization services, please see the Mountain Health Trust and West Virginia Health Bridge Covered Benefits Table.

YOUR BENEFITS

You can get many services through The Health Plan's Medicaid managed care program in addition to those that come with regular Medicaid. For most benefits, you will need to go through your PCP. There are some services that do not require a referral from your PCP. This means that you do not need approval from your PCP. To get these services, look in your Provider Directory for the list of providers who offer these services. You can schedule the appointment yourself. You have the right to a second opinion from a qualified health care professional within or outside the network, at no cost to you. This second opinion could be in addition to that of a specialist referred by the PCP. If you have any questions, The Health Plan can help. Just call Member Services at 1.888.613.8385. Member Services can explain how to access your services.

COVERED SERVICES

Your covered services must be medically necessary. You should get these services from providers in The Health Plan network. Your PCP should provide covered services or refer you to another provider to do so. The services included fall under medical (maternity and sexually transmitted disease services), behavioral, dental, and vision. Benefit packages differ, depending on whether you are covered under Mountain Health Trust or West Virginia Health Bridge. You can see any differences in the table below. Children and adolescents can get orthodontic services for the entire length of treatment and other services to fix dental problems. Members up to 21 can also access the Fluoride Varnish Program, offered by providers certified from the WVU School of Dentistry. GETTING YOUR BENEFITS

REFERRALS AND SPECIALTY CARE

Referrals are not needed when you go to see your PCP. For women, referrals are not needed for appointments with your OB/GYN. If you need health care that your PCP cannot give, your PCP must refer you to another provider who can. Usually, you will be referred to a specialist in our network. When your PCP refers you, the care you get from a specialist will be covered. To see our list of specialists, please call us at 1.888.613.8385 or visit www.findadoc.healthplan.org. Member Services can also help you if you believe you are not getting the care you need.

SERVICE AUTHORIZATIONS

If you need to see a provider who is not on our list, your PCP must ask The Health Plan for approval. Asking for an out-of-network referral is called a service authorization request. If the service is available within The Health Plan's network, there is no guarantee you will be approved to see the out of network providers. It is important to remember that your PCP must ask us for approval before seeing an out-of-network provider. Your PCP can call Member Services at 1.888.613.8385. If you are approved to see a provider who is outside of our plan, your visits will be covered. If we do not approve a service authorization, you can appeal the decision.

PRIOR AUTHORIZATIONS

Sometimes you may need certain services or treatments that require approval. Before you get this type of care, your provider must ask Member Services. If the care is best for your needs, then it will be covered. If we do not approve a prior authorization, you can appeal the decision.

OUT-OF-NETWORK SERVICES

If we are unable to provide certain covered services, you may get out-of-network services. The cost will be no greater than it would be if you received the services within our network. Services will be provided in an acceptable and timely manner.

COST SHARING

Cost sharing, or a copayment, is the money you need to pay at the time of service. Whenever you see your PCP or a provider you were referred to in our network, you are not responsible for any costs except the copayment. The amount of the copayment will change depending on the service and the federal poverty level. Please see the table below for more details.

Copayments will be collected for:

- Inpatient and outpatient services
- Physician office visits, including nurse practitioner visits
- Non-emergency use of an emergency room
- Caretaker relatives age 21 and up
- Transitional Medicaid members age 21 and up
- Any other members that are not specifically exempt

OUR POLICIES

ADVANCE DIRECTIVES

Under Federal and State law, you have the right to make decisions about your medical care, including an advance directive. An advance directive is legal document with your wishes regarding medical treatment if there comes a time when you are too sick to make your decisions known. An advance directive allows you to plan in advance and participate in decision-making around your health. It is a way to let your doctors know what kind of treatment you do or do not want. You can also allow someone you trust to make treatment decisions for you. This would allow that person to make choices about your care and treatment. Many people choose a relative or someone they know well.

You should speak with your doctor about making an advance directive. You do not have to fill one out, but you may want to. If you decide to let someone you trust make treatment decisions for you, be sure to speak with that person. Making an advance directive requires filling out forms and stating your wishes in writing. It will become a part of your medical records. Remember, you can change your advance directive at any time.

Your doctor and Member Services can help you to fill out or answer questions about advance directives.

ENDING YOUR MEMBERSHIP

If you do not wish to be a member of The Health Plan, you have the right to disenroll at any time. You may re-enroll in another health plan if you choose. The enrollment broker can help you. Just call 1.800.449.8466.

Sometimes members are disenrolled from The Health Plan involuntarily. This can happen if:

- You are no longer eligible for Medicaid managed care
- You move outside of our service area
- You are placed in a nursing facility, State institution, or intermediate care facility for the mentally retarded for more than 30 calendar days
- You were incorrectly enrolled in The Health Plan
- You die

If this happens, your services may stop suddenly. The enrollment broker and Member Services can answer any questions you may have about disenrollment. If you move out of the country or out of state, call the West Virginia Bureau for Medical Services as 1.304.558.1700.

APPROPRIATE TREATMENT OF MINORS

The law says that persons under age 18 cannot give valid consent for medical care. The parent or guardian must give consent for medical care for the minor (child). We will permit the enrollee's parent or representative to facilitate care or treatment decisions when the enrollee is unable to do so. We will provide for the enrollee or representative involvement in decisions to withhold resuscitative services, or to forgo or withdraw life-sustaining treatment, and comply with requirements of federal and state law with respect to advance directives.

A person over age 16 but under age 18 may ask a court to declare him or her "emancipated." If the court agrees, the person can approve his or her own medical care. Anyone over age 16 who is married is considered emancipated. The parents of an emancipated child have no right to control, nor a duty to give care and money support to the child. Any child who is emancipated can give valid consent to medical care. This person then becomes financially responsible for the costs of the medical treatment.

Mature minors can give medical consent. A person is considered mature based on age, intelligence, experience, living situation, education, and degree of maturity.

Any licensed physician can examine, diagnose, treat, and counsel any minor at his or her request for an addiction or dependency of alcohol or drugs. This can be without the knowledge or consent of the minor's parent or guardian. This is also the same for any venereal disease.

Minors can consent to family planning services. The services must be kept confidential from the parents if the minor asks.

If a minor presents with a medical problem needing immediate care or which could cause immediate danger to the child's health, and no parent or guardian can be found to approve care, then the minor can consent to medical care.

Oral interpreters for minors are available in the case of an emergency.

THIRD PARTY LIABILITY

If you have insurance other than Medicaid, please call Member Services to let us know. Please call and let us know if another insurance company has been involved with your:

- Workers' compensation claim
- Personal injury
- Medical malpractice law suit
- Car accident

You must use any other health insurance you have first before using Medicaid.
